Das weiße Mammut 2019 Grüner Veltliner Ried Kreuzberg Kremstal Reserve

Located on the right bank of the river Danube, is **Hollenburg**, the southernmost district of Krems, also called **Austria's white wine capital**. Our winery is situated within this historical region of the **Kremstal**, where viticulture was practiced evidently **400 years A.D. by the Romans**. The love for wine is deeply rooted in our family for far over a century, and since 1868 the winery is family – owned. Quality grows outside in the vineyards, where the soils are dominated by **loess** and supplemented by **conglomerate** and **gravel**. The warm **Pannonian climate** from the east meets the Continental influenced climate of the higher situated Waldviertel. This results in extreme temperature differences between day and night, which has intense positive effect on the formation of flavour. Foundation for producing great wine is **sustainable treatment** of soil and vineyards. To maintain the nature given quality, we only work with gentle treatments and few interventions in the cellar. **“I make the wines for myself, I can only sell the wines that I like.”**

Origin:	Kremstal DAC Reserve
Location	Ried Hollenburger Kreuzberg This old vineyard is located right beneath the historical Wetterkreuz - Church
Analysis:	Alcohol: 14,0% vol Residual sugar: 2,1 g/l Acidity: 6,3 g/l
Closure:	Natural Cork
Soil:	Weathering rock, loess and conglomerate
Harvest:	October
Vinification:	12 months in new French barrique barrels
Characteristic:	Only the healthiest and ripest grapes are refined in the finest barrique. Clear, but beautifully integrated wood notes. Burgundy fragrance, green nuts, pinch of vanilla. Soft, voluminous, creamy and powerful on the palate. Absolutely unusual, even out of the line of dancing variety representatives. A mammoth full stop!
Recommendation:	Harmonizes wonderfully with grilled dishes. Steaks or stewed meat. If you are not in the mood for red wine, this is a great alternative.
Ideal drinking point:	2019 bis 2035
Drink temperature:	9-12°C
Tip:	Let breathe for about 2 – 3 hours before enjoying.

EAN Bottle: 9120010691 744
EAN Case: 9120010691 751
