

Forstreiter

Pink 2022

Located on the right bank of the river Danube, is **Hollenburg**, the southernmost district of Krems, also called **Austria's white wine capital**. Our winery is situated within this historical region of the **Kremstal**, where viticulture was practiced evidently **400 years A.D. by the Romans**. The love for wine is deeply rooted in our family for far over a century, and since 1868 the winery is family – owned.

Quality grows outside in the vineyards, where the soils are dominated by **loess** and supplemented by **conglomerate** and **gravel**. The warm **Pannonian climate** from the east meets the Continental influenced climate of the higher situated Waldviertel. This results in extreme temperature differences between day and night, which has intense positive effect on the formation of flavour. Foundation for producing great wine is **sustainable treatment** of soil and vineyards. To maintain the nature given quality, we only work with gentle treatments and few interventions in the cellar. **“I make the wines for myself, I can only sell the wines that I like.”**

Variety: Zweigelt

Origin:

Location: The grapes come from our vineyards, which are among the best locations of Hollenburg.

Soil: Loess on conglomerate

Climate: Hot days due to the foothills of the Pannonian region – at night strong cooling due to the Danube river and northwest wind coming from the Waldviertel.

The special microclimate and terroir produces extremely fruity and spicy wines.

Wine description:

Fragrant fruit of strawberries and cherries. Juicy and fresh on the palate with ultra-fine tannins. Very harmonious in acidity, fruit and structure. Uncomplicated drinking fun and drinking pleasure.

Vinification: steel tank

Alcohol:	12,5 % vol
Residual sugar:	4,2 g/l – dry
Acidity:	6,2 g/l
Service temperature:	8°C

EAN Flasche: 9120010693 311
EAN Karton: 9120010693 328
